

EDITOR'S NOTE

This issue of *Heródoto* presents the first part of the dossier Culture, Society and Historiography. The second part will be published in issue v. 8, n. 2, 2023. In these dossiers, which have a broad thematic scope, we bring together contributions from Brazilian and foreign colleagues who present articles on Classical Antiquity, Eastern Antiquity and historiographical studies, as well as two translations (one in each issue) by Almudena Hernando - related to her research on identities and their importance for cultural studies.

We wish you all a good reading.

Cordially,

Glaidson José da Silva and Filipe Noé da Silva
