

## **EDITOR'S NOTE**

This edition of *Heródoto* presents the second part of the Culture, Society and Historiography dossier. The first part was published in issue v. 8, n. 1, 2023. In these dossiers, which have a broad thematic scope, we bring together contributions from Brazilian and foreign colleagues who present articles related to Classical Antiquity, Eastern Antiquity and historiographical studies, as well as two translations (one in each issue) by Almudena Hernando - related to her research on identities and their importance for cultural studies.

We wish you all a good read.

Cordially,

Glaysen José da Silva and Filipe Noé da Silva
